

The plant is playing games about taking the 61d applications, we will get that fixed. They have to take them, we were just informed that the 61d application is on the hub but only shows for indefinitely laid off employees. So if they have you coded right can go into the hub and under my human resources there will be a 61d tab, click and read and accept then submit. Or you can go to the pant and fill out a paper form.
