I will be out of the office until April 2nd. If you have any questions or something comes up, please contact the Hall at 815-544-2111. I will have limited access to email during this time.

At this time, there aren't any updates on timelines for Assembly/Battery related work. There has been no conversation on recalling the additional volunteers that signed up for the PDC work. As updates come out, I'll get them out to everyone.
