

# Alternative ID Numbers Offer Extra Protection

Security and protection of personal information is more important than ever. To help protect our members, Delta Dental stores an alternative ID number that can be used rather than a Social Security number to verify eligibility and process claims.

You are able to receive dental services without disclosing your Social Security number by providing the dental office with your alternative Delta Dental ID number. To obtain your number or to print a copy of your ID card, follow one of these easy methods.
